SR 24 (2022) - Sanctity of Human Life

This legislation was defeated in 2022. SR 24 confirmed truths that every legislator should support, stating that "every individual has the right to an equal opportunity for success", that "our nation's Declaration of Independence declares that our rights come from our Creator", and that "as elected officials, we are called upon to set an example of respect for human life."

Application: This law would have recognized January 22nd as 'Sanctity of Human Life Day.'
